MEDICARE FROM START TO FINISH

PURPOSE

This one-day workshop will begin with how to gain access to and read the MDS reports from CASPER in order to self-audit your RAI process. The completion of the MDS is becoming more and more difficult and confusing. This workshop will help the MDS coordinator and other members of the interdisciplinary team to understand the admitting criteria and the ongoing documentation needs of the Medicare resident. The RAI process in relationship to Medicare is also confusing and errors can be a financial nightmare for facilities. This workshop will help clear up the confusion surrounding this process.

WHO SHOULD ATTEND

This workshop is geared towards those individuals working in long-term care who have a leadership role such as the ADM, DON, ADON, or MDS coordinator.

- Utilize the CMS CASPER reports for quality improvement, to self-audit the RAI - MDS process
